To Whom It May Concern:

Please find enclosed a copy of the Sheriff's Sale documents signed and ordered by the Court of Grand County, Utah dated February 5, 2016.

Please also find enclosed a copy of the Second Amended Praecipe mailed July 5, 2016. This represents and describes the mineral claims granted to me by the Grand County Court as requested by the sheriff of Grand County.

My attorney, Russell Cline of Salt Lake City, has been trying to get the sale date with the sheriff's department set as soon as possible.

We want to keep you informed as to the standing of the legal process so there is no question as to the ownership of these mineral claims, specifically by Dale Snyder who operates under "The Diggings" and fraudulently claims he is operating mining operations on some of these claims. I believe you have had several issues with Snyder in the past.

As you are aware, the Court in Grand County, Utah **granted** our motion for Summary Judgment on the 48 mineral assets we are working on. The Court granted the final motion April 24, 2015 and no appeal was filed by the cutoff date that was May 26, 2015.

Upon completion of the sheriff's sale, we will actively pursue exploration and the other work necessary on these mining claims.

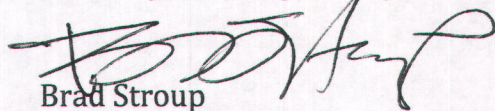

We have also communicated with the BLM in Moab, UT and in Salt Lake City, UT and we are planning a trip to meet face to face with them (and you) to discuss our plans moving forward.

Please know, we have to wait for the Court system to complete the process before we moved forward. Now that that process is being completed, we will get to work accordingly.

As we discussed, we will complete the reclamation of the land left in a mess by the previous individuals.

Thank you for your time and attention to this matter. We look forward to meeting and working with you. We will advise you of our travel plans once they are set.

Sincerely and Respectfully,

Brad Stroup
